CHAPTER 1

DISCOVERING THE BRILLIANCE YOU *ALREADY* POSSESS WITHIN

Are you looking for more . . . for a *better* life . . . an EXTRAORDINARY life? In the following pages you will be excited to discover that you *already* possess everything you need to accomplish just that. As you quickly and easily learn the treasures of wisdom contained in this book, you will begin to unlock the infinite potential inside you and starting living a life filled with much more happiness, abundance, prosperity and success. This is not a book with a “get rich quick” scheme, rather it is a book for people who are looking for a more intelligent way to live.

With this wonderful, new knowledge you will be able to tap into the brilliance that you *already* possess within and begin creating enormous wealth and prosperity the easy way . . . in EVERY area of your life.

These exciting, brilliant, and proven techniques on how to create enormous wealth and prosperity have been around

for hundreds of years. I learned these profound “gems of wisdom” by reading over 150 books on spirituality and philosophy over the past 15 years . . . but don’t let the words spirituality and philosophy turn you off. YOU have a special power within you right now that will enable you to draw much more wealth and prosperity to you should you decide to use it. Nothing “airy/fairy” about it. I used this extraordinary power “within” to create and *maintain* enormous success and prosperity in my own business career, and I’m here to tell you it works!

Before I reveal the keys to obtaining the wealth you seek, let me ask you a question. How do YOU define wealth? Is it a lot of money in the bank? A great salary? A beautiful home? An expensive car? All of the above? I bet those would be some, if not all of your answers.

Let’s look at the definition of wealth from a “different” point of view to delve further into this special power that will help you create WHATEVER it is you desire.

Wealth, in the truest sense of the word, is much more than just money in the bank . . . for a man with a million dollars is just that . . . a man with a million dollars. Is he happy? Does he have excellent health? What about his business and personal relationships? Are they productive and happy? Above all, does he have a good relationship with himself? Are his days filled with peace and harmony?

Wealth, in the truest sense of the word, lies in our *inner* lives as well as in our *outer* lives. It includes *both* . . . not one or the other. A truly magnificent and abundant life is about attaining a life of love, happiness, health and peace of mind along with an abundance of material riches.

When you have a rich inner life as well as a rich outer life, you are truly a wealthy person in *every* sense of the word.

Money alone cannot buy happiness. We've all heard that, and it's true. How many unhappy people have you known that "seemingly" had everything they could possibly want, but are still miserable? As we mentioned, the information contained in this book will give you the tools you need to obtain true wealth in *every* area of your life. It's about becoming a millionaire mentally *and* financially, so let's get started!

It has been said that there is nothing outside of you that can ever make up for any feelings of incompleteness that you feel inside. True happiness comes when we are successful within *and* without, because when you have attained that, you will also begin experiencing much more balance in your life, and, in turn, the peace of mind you have been seeking. Remember, whatever it is that you struggle and fight to get, you usually have to struggle and fight to keep. Trying to get ahead using this method only *perpetuates* the stress and struggle you experience in your life, but you are now learning that there is a better way! By creating wealth and prosperity with balance, ease and grace using the brilliant techniques in this book, you will finally end this enormous and disease-producing stressful life that need not exist. When you learn about this special power within and begin implementing it into your life, you will stop focusing all your efforts *outside* of yourself in order to find your success. "As within, so without." You create your outer success from within and not the other way around! Also please remember this wonderful ancient principle which states that everything is always created twice. Once in mind. *Then* in reality.
